es emotivo sportiva

[es] is an abbreviation of “emotivo sportiva”,

Dukes&Co. plans, develops, and produces forged all-custom-made wheels.

We make full use of the most advanced forging and processing technology that Japan is proud of, to produce

“emotivo sportiva” wheels for Italian cars.

es Wheel, which specializes in Italian cars, is a completely “MADE IN JAPAN” forged wheel

that is designed and manufactured by Dukes&Co.

These are special-made wheels that meet the owner's detailed requests.

DEMO CARS

There are 18 demo cars in total, and we are proud to present 7 of them.

THREEHUNDRED's demo cars are like children to us.

They are very important and precious to us.

THAB3035 LED Reverse Lamp
THAB3110 Titanium screw (blue)
THAB3048 Titanium screw (for fuel catch)

THREEHUNDRED is based on three fundamental principles.
THREE (originality, superior quality, and joy of ownership),
The concept is to give HUNDRED satisfaction to customers who encounter the parts.

You don't just buy parts,
we want you to experience THREEHUNDRED and create a "LifeStyle" of living with ABARTH.

"Endless possibilities for customization"
It's the best way to give your unique ABARTH even more personality.

There are many ways to express it, but what all parts have in common is "It's cool!"
Not only the product itself, but also advertisements, instruction manuals, packaging, etc.
THREEHUNDRED's worldview expands by paying attention to the unnecessary details.

THREE 
HUNDRED®
